

Section 29 - BEEF BREEDS

THERE IS NO RESTRICTION ON THE NUMBER OF ANIMALS ENTERED IN EACH CLASS.

All females over 2 years of age entered in Beef Cattle and Small Breeds Sections must be either "in milk" or "in calf". The Society may demand production of a Veterinary Surgeon's certification that a female has been pregnancy tested "in calf", failing which the Society has the right to arrange a veterinary inspection on the Showgrounds at the expense of the entrant.

An animal shall not be admitted to the Showgrounds unless it is entered for exhibition, with the exception that a calf of an exhibit in a beef, dual purpose breed or small breed class may be admitted if born on or after 1st January, 2003 and is being suckled by the exhibit. **Such a calf is to be the natural born progeny of the exhibit and be tattooed with its permanent ink impregnated tattoo if born prior to arrival at the Showgrounds.**

All calves at foot must be eligible for FULL REGISTRATION in the Herd Book in which its dam is registered.

Any cow found with a calf at foot born prior to 1st January, 2003 or a calf not being the natural born progeny of the exhibit nor tattooed as required above, shall be deemed to be ineligible for exhibition at the Show and the Society may by notice to the Exhibitor require the animal to be forthwith removed from the Showgrounds. The Exhibitor, upon receipt of such notice, shall forthwith remove such animal and failing such removal by him within the time prescribed, the Society may remove the animal or cause the animal to be removed and all costs and expenses of removal shall be borne by the exhibitor and shall be refunded to the Society.

A bull or heifer entered in any class for an exhibit of an age under 18 months shall be ineligible for exhibition in any such class if at the time of inspection of the exhibit at the Showgrounds the bull or heifer has or shows, in the opinion of the Chief Steward or his nominee, evidence of having had a permanent tooth; or if entered in any class for an exhibit of an age under 24 months the bull or heifer has, or shows evidence of having had more than two permanent teeth. A tooth which has erupted from the gum in whole or part shall be deemed to be a permanent tooth.

PRIZE RIBBONS

Subject to Regulations, ribbons may be awarded throughout the beef cattle classes for 1st, 2nd & 3rd places only.

BEEF CATTLE BREED GROUPS

Beef Cattle Breeds are placed into groups at the discretion of the Society based on the number of animals exhibited at the two previous Royal Melbourne Shows.

Other requirements of the Royal Melbourne Show may also be considered by the Society in making this decision.

All animals entered in the Beef Cattle Section must be registered in a recognised Herd Book of their breed and have a background of at least four recorded generations of their breed with the exception of **Braford** and **Brangus** which must be registered in a recognised Herd Book of their breed only.

The following regulations shall apply in the case of particular individual breeds.

In the case of **Beef Shorthorns** - no heifer born twin or triplet with a bull will be eligible for exhibition until such time as she produced a calf, and dehorned animals will be eligible for exhibition. In the case of **Hereford** and **Devon**, all females not of age for adult registration must be the progeny of registered sires and dams and duly recorded as progeny.

In the case of **Shorthorns** all cattle shown should be either naturally polled or dehorned at the time of entry.

In the case of **Poll Herefords** all entries will be subjected to a six generation check for genital abnormalities known to the Breed Society and animals which do not meet the standards necessary to obtain the Australian Poll Hereford Society's Seal of Approval will be ineligible for exhibition. Animals with scurs will be eligible to compete provided the scurs are loose at hairline and recorded with the Society.

In the case of **Murray Greys** only animals which comply with Rule 10 "Exhibition of Stock" in the Rules of the Murray Grey Beef Cattle Society Inc. shall be eligible to compete.

In the case of **Belted Galloways** only animals of at least 93.75% (15/16) breeding purity be accepted for exhibition.

In the case of **Santa Gertrudis** all females 22 months and over shall be certified in calf or have a calf at foot.

In the case of **Charolais**, only animals which comply with Regulation 13 "Show Conditions" in the Regulations of the Charolais Society of Australia Ltd shall be eligible to compete.

In the case of **Composites**, please refer to the information provided on page 11.

BREEDPLAN

Breed Societies who have accepted for Breedplan data to be used are Angus, Hereford, Shorthorn and Simmental.

CODE OF PRACTICE FOR THE USE OF BREEDPLAN DATA IN BEEF CATTLE JUDGING AT THE 2003 ROYAL MELBOURNE SHOW.

Breedplan data is only available to be used in Beef Cattle Judging if:

1. The respective Breed Society agrees for Breedplan data to be utilised in the judging of their breed of Beef cattle.
2. The respective Breed Judge then if he/she so desires can utilise Breedplan data in the breed judging.
3. Breedplan data is only used if **both** the Breed Society and Breed Judge agree for Breedplan data to be used. Subject to this agreement, Breedplan data will also be available ringside for the general public.
4. Breedplan data will then be utilised in accordance with the following:
 - (i) The Judge is not to rely solely upon Breedplan data to arrive at judging decisions.
 - (ii) The Judge is to assess each class visually without reference to Breedplan data to the point of making his preliminary placings in the class.
 - (iii) The Judge may then, if he/she so desires, ask for Breedplan data appertaining to those animals which he/she has provisionally placed 1st to 4th in the class and subject to (iv) below, he/she may use the data to assist him/her in making his/her final placings among those four animals. The remainder of the class is to be placed by visual assessment only.
 - (iv) If any of the top four animals (as described in (iii)) does not have Breedplan data available to the judge at the time of judging, then the judge will complete his/her final placements without reference to Breedplan data for any animal in the class.

PERFORMANCE CLASSES

In order for a breed to have a Performance Class there must be a minimum of three animals entered.

One Performance class each will be available in the Angus, Hereford, Poll Hereford, Simmental, Murray Grey, Limousin and Shorthorn Breeds, provided animals entered are registered with Group Breedplan and have been entered and exhibited in their respective age class.

Performance classes will be judged at the conclusion of the Supreme Exhibit Award in each individual breed **provided that three (3) animals or more are exhibited.**

Additional information distributed on Performance figures of exhibits during judging will be the responsibility of relevant Breed Society technical officers or suitably qualified breed representatives.

OBJECTIVES:

1. To make Show selection closer to practical cattle selection using objective measurement with Judges acting in the role of a buyer ranking a group of potential herd sires for use in a Commercial beef operation.
2. To promote improved genetic selection procedures for:-
 - (a) Cattle Breeders
 - (b) General Public
3. To allow breeders to compare their cattle with others.
4. To maintain the spectacle of the Show Ring and the interest of both cattle breeders and the general public.
5. To promote individual breeds and breeders, and to maintain incentive for breeders to show their cattle.

COMPOSITES

BEEF COMPOSITE SECTION

In recognition of the growing influence Composites are having in Australia's beef herd, a show section has been introduced to create comparisons, stimulate discussion and develop industry benchmarks.

Because of the evolving nature of composite breeding, the traditional pedigrees and registrations are not applicable. The breed mix based on percentage content of each breed in the animal's make up is required. For the initial showing of Composites, eligibility is based on any of the three definitions in the Composite Beef Breeders Australia website www.compositebeef.com.au and are:

CLOSED COMPOSITE a composite which has been closed after the initial crossing, then stabilised for two or more generations.

OPEN COMPOSITE the breed mix has been stabilised, but new introductions are made, of the same or similar breed mix.

CROSSBRED first and second crosses. These may be part of the development phase of a Composite.

Information required on entry form as well as all the usual exhibitor information:

Date of birth.

Name of Composite (if any) (eg Meatmax).

Breed composition: (name of breeds and percentages).

MURRAY GREY**MURRAY GREYS CELEBRATE 40 YEARS AT MELBOURNE**

Murray Grey cattle first stepped into the Melbourne Royal Show ring in 1963.

In that debut year, judge, butcher and faithful fan, Herb Freyer chose Thologolong Innamincka (130) as the breed's first Grand Champion Bull and Moonflower 3rd (815A) as the first Grand Champion Female.

The performance of Murray Grey cattle in the Melbourne Royal Show steer and carcass competition has been impressive to say the least, winning the Grand Champion Carcass title 10 times in 17 years from 1972 to 1988.

In more recent years, the breed has been successful in the team of three steers competition to take out the Borthwick Trophy in 2000, 1996, 1995, 1994 and 1993.

Forty years on, Australia's own beef breed has continued to show the best of the breed in the Melbourne Ring - and this year, we're celebrating it!

To do so, the MGBCS will be setting up a memorabilia display as well as hosting a function for all to enthusiasts to attend.

The Society invites all interested members to attend Murray Grey judging at this year's Melbourne Show, on September 27, to be part of the celebrations that will mark this wonderful milestone.
