D-Scour Paste

Give Scours the Ass!!

A concentrated multi-strain probiotic with garlic extract aiding in the treatment / control of scours in animals.

D-Scour Paste has been formulated to control scours through the combined action of selected natural live micro-organisms complemented by a natural yet powerful antimicrobial. The combination is synergistic as the antimicrobial portion does not affect the probiotic yet both components attack the animal's gut. This is particularly important when treating animals with enteric disease caused by E.coli, Rotavirus or Candida spp. and microbially mediated diseases of the urogenital tract, where for example, Candida albicans is implicated.

Garlic has been used for its nutritional and medicinal properties for thousands of years but only recently have manufacturing processes been developed which protect and stabilize its important antimicrobial active.

D-Scour Paste does not contain any chemical or antibiotic component, just safe ingredients produced by Mother Nature. In contrast the antibiotics used to treat scours don't just kill target pathogens but destroy beneficial digestive bacteria as well. If scouring persists consult your veterinarian.

The safe alternative to antibiotics
