The most effective and reliable flystrike preventative also gives you something extra.

Choice.

VETRAZIN Liquid provides reliable, long term flystrike protection and it can be applied to sheep with at least six weeks wool. Plus, there has been absolutely no build-up of fly resistance, which means VETRAZIN Liquid gives you the same excellent results now as it has done for the past twenty years.

But that's not all VETRAZIN gives you.

As well as reliability, VETRAZIN also gives you a choice. Depending on your preferences and circumstances, you can use either VETRAZIN Liquid or VETRAZIN Spray-On. Both provide long term protection, the main difference lies in the way they're applied. So whether you use VETRAZIN Liquid or VETRAZIN Spray-On, you can be sure of one thing - *you've made the right choice.*
