THE FIRST STAGE
of the
CRAFT CENTRE
OF AUSTRALIA

IS NOW OPEN AT THE BENDIGO POTTERY

We are securing Australia's most noted craftsmen to demonstrate their skills. The first craftsman is Metal Artist — Peter Krongaard who is highly regarded amongst Australian Craftsmen and has taught and demonstrated his craft throughout Australia.

His individually designed and crafted platters, ladels, spoons and jewellery are available to view and purchase in our Stables Gallery

THE POTTERY has now become a major tourist attraction with many overseas and interstate visitors calling to see the Potters throwing the Stoneware Pottery for which they are world famous. THE KILNS, buildings and

equipment are mostly of the 1890 vintage and are retained with our restoration.

Tourists are shown through, walking over handsome brick floors from the mixing and formulation of the clays, to the potters throwing and decorating their wares, in the traditions of yesteryear, through the drying process to the firing with wood and coal and then on to the Craft Village where demonstrations of craft are in action. Your tour then completes at the Stables Gallery where all the Craft Products are displayed to view and purchase.

Not more than one exhibit may occupy any one bench or cage. A dog may not be so placed on the bench or in a cage as to be away from the view of the public. The position of exhibit numbers on benches or cages may not be altered.

UNDER NO CIRCUMSTANCES ARE EXHIBITORS PERMITTED TO SIT ON THE BENCHES.

Folding seats are on hire in the Dog Pavilion at 30 cents per day.

After the Judge's Steward has given word to the Judge to proceed with the judging of a competition, no other exhibit may enter the judging ring until after that competition has been completed. Exhibits which are not brought promptly to the rings when called, and the owners or handlers of which omit to obey the orders of the Stewards, or are wearing more than one exhibit number, may be refused admission to the rings.

SHAALTARAH presents:

"Afghan of the Year 1973" – Top ranking Hound 1973

AUST. CH. FRISCHLINEN ZINITAH

Sire: Aust. Ch. Shaaltarah Subazi Khan. Dam: Aust. Ch. Shaaltarah Fur Baburi.

Bred through three generations of Shaaltarah greats, which evolved from foundation stock imported from U.K. in the '60's, Zinitah is without doubt one of the greatest winning Afghan bitches in Australia's history. Shaaltarah is also the home of Australia's all time greatest producing female, **Afghan Ch. Horningsea Kishta** (Imp. U.K.), dam of ten Group winning Champions.

In late '74, we hope to have available puppies from Ch. Zinitah, already a successful producer of winners, and well bred, well adjusted descendants of Ch. Kishta are usually available to discerning exhibitors at reasonable prices. Stud services also arranged.

Performance: You only get what you put in

Start right with Trusty

Your dog's performance, and your dog's diet, are closely related. By feeding your dog Trusty, on its own or mixed with his usual food, you give your dog a greater quantity of the nutrients that are so vital. Vitamins A, E and D, calcium, phosphorus and iodine in carefully balanced quantities. This means the end of 'hit or miss' nutrition—your dog stays fit, in the peak of his performance. Start your dog's diet right, and you're on the right path to top performance.

NOW! SEE AND HEAR ABOUT YOUR FAVOURITE BREED!

UNIQUE COMBINATION OF VISION AND SOUND

Seeing and hearing by themselves is OK, but together the effect is fabulous. Anyone with a slide projector and a cassette player can have both with these uniquely produced sound slides. The cassette tells you when to change the slide!

HEAR AND SEE WHAT AUTHORITIES HAVE TO SAY ABOUT YOUR BREED

Professionally produced sound cassettes and slides, vetted by authorities on the breeds, tell you and show you about their history, conformation, temperaments, use and care. Some have been produced and many others are on the way.

TELL US WHAT YOU'D LIKE TO SEE!

If your breed has not yet been listed, or if you have an idea you'd like to see produced, then tell us. There is space on the coupon.

TO BE ELIGIBLE TO NOMINATE, HORSES MUST HAVE BEEN PLACED IN A RACE AT A ROYAL SHOW (FINAL) OR PLACED IN A RACE AT A REGISTERED MEETING (THREE YEAR OLD RACES EXCEPTED).

ACCEPTANCES WILL BE DECLARED AT THE OFFICE OF THE TROTTING CONTROL BOARD IN THE MEMBERS GRANDSTAND, ON THE ROYAL SHOW GROUNDS, ASCOT VALE, 3032, on the day on which the race is to be held. WINS AT THIS SHOW WILL CARRY PENALTIES ONLY AT AGRICULTURAL SHOWS.

Races may be started from behind the mobile barrier at the discretion of the Stewards.

All trainers nominating, and drivers competing, must hold current licences or permits issued by the Trotting Control Board.

FOCUS ON CLUBS — continued from Page 5

Just a little complaint, however. Would exhibitors PLEASE let show managers know beforehand if they are unable to attend? It would save so much unnecessary work when setting up the cages and trestles. Are exhibitors aware of the F.C.C. rule that clubs may penalise them for failing to bench their cats without notification?

Our next effort will be the organisation of the Cat Section for the Bendigo Agricultural Society Show on Saturday, 26th October. We are pleased to report that the Society has enlarged the Cat Pavilion and has its best entry to date.

METROPOLITAN CAT CLUB INC.

21st March, 1974. Judge: Mrs. S. Wilkinson
Adult Cat Type

Male Open: 25 entries, 2 abs. 1st Robroy Abacar (Imp. Aust.), a magnificent Cornish Rex. To me, he was the quintessence of a foreign type cat. Here was absolutely everything you could wish for on the one cat. A medium size svelte body with beautiful musculature, long slim legs, with dainty oval feet. Long slender neck which carried a fine head with super features. A superb whip tail which was thin at the base. Though he was such a refined cat, he was not the slightest bit effeminate and was the most handsome male I have seen for some time. 2nd Ch. Headingley Arcules, a very handsome Bluepoint with outstanding head type, so sadly lacking in present-day Bluepoints. He was finely boned with a good tail. 3rd Gr. Ch. Garth Jaques, being a senior cat did not handicap his handsome Sealpoint. He still has all the attributes of a good foreign type cat and the ability to pass these qualities on to his progeny as he was also awarded Best Type Stud thanks to his beautiful typey Sealpoint daughters.

Female Open: 35 entries, 7 absent, 1st Arwen Evenstar, this striking Sealpoint had a classic marten face, beautiful profile and excellent ear placement. Lovely long slender neck with body and tail to match.

Letters to the Editor

Sirs:

Following my talk at your Feline Control Council Seminar on September 1, 1974, there was considerable

discussion on the subject of ringworm infections in cats. At the time I expressed some hesitation about providing precise information in reply to questions, without having an opportunity to look into the subject fully. In addition, I am aware that the proceedings were tape recorded and statements made by me at that time might be quoted, replayed, or reproduced in printed form.

Therefore, I have now had the opportunity to re-search the subject thoroughly, consult with specialists in the field of veterinary microbiology and wish to provide the following information that will correct any incorrect or incomplete statements I may have made at that meeting.

The following statements are taken from published research reports and textbooks on the subject. The sources of information are listed. Brackets indicate my explanatory inserts.

1. The majority of ringworm infections in cats are caused by the fungus *Microsporum canis*. A small minority of infections are due to the fungus *Trichophyton mentagrophytes* and on rare occasions other fungi may be responsible.
2. Some of the strains of *Microsporum canis* will cause fluorescence of hairs under the Wood's light. The other types of fungi mentioned above, DO NOT. Therefore, the occurrence of fluorescence is helpful in the diagnosis of ringworm while the lack of fluorescence is meaningless.
3. The usual route of infection is by direct contact, but indirect contact and airborne infections may also account for transmission of the disease.
4. Spores shed from an infected animal may remain viable and infectious for months to years under ordinary environmental conditions.
5. The fungus may continue to remain on the tissues of the animal after clinical recovery (apparent cure). Though no figures are available, it has been suggested that approximately 10 per cent of cats are carrying *Microsporum canis* on their skin or hair. (The duration of this carrier state is almost unknown.)

I hope this information will be of assistance to Council in their attempts to control the disease at shows. I would ask that the information also be made available to all members so they may better understand the disease and the difficulties encountered in eliminating sources of infection.

Sincerely,

V. P. STUDDERT, D.V.M.,
